**DETAILED ACTION**

- 1) Claims 1-20 are presented for examination in light of the amendment filed 5/23/05.

***Allowable Subject Matter***

- 2) Claims 1-20 are allowed.
- 3) The following is an examiner's statement of reasons for allowance:

Referring to claims 1, 6, 11 and 16, neither Stack (USPGPUB 2004/0102864) nor Spoorre (U.S. Pat 5,602,761), together or in combination with the prior art of record, explicitly teach a system or method for analyzing an anomalous condition in a process for producing a product comprising a plurality of subprocesses comprising extracting at least one representative value from each subprocess that is characteristic of a pattern expressed in the output of a sensor, thus generating a plurality of representative values for the process as a whole, and retrieving data from a knowledge base comprising a plurality of representative values mapped to associated anomalous conditions, in combination with the remaining elements or feature of the claimed invention.

Referring to claims 2-5, 7-10, 12-15 and 17-20, the claims are dependent on the allowed claims above, and are therefore also allowable.

- 4) Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
